NORTH POLE · CHRISTMAS POST

Dear Sophie,

Your letter has arrived at the North Pole! The elves placed it beside my hot chocolate, and reading it made me smile.

I heard about your wonderful adventures this year. Keep being curious, trying new things and sharing your kindness with the people around you.

The reindeer are practising their landings and the workshop is full of surprises. We're all getting ready for a very magical Christmas!

With a big, snowy hug,

Santa Claus
